RE: Badlands Energy Amended Request for Agency Action  
Hearing date – October 28, 2015  
Docket No. 2015-24  
Cause No. 139-135  
160-acre well Density Pattern  
Township 2 South, Range 1 East, USM  
Uintah County, Utah

Ladies and Gentlemen:

Crescent Point U.S. Energy Corp. owns leasehold interests in the lands covered by the above referenced Request by Badlands Energy to increase the number of wells to be allowed in each 640 acre Section from the currently allowed two wells to an increased density of four wells per Section. Badlands Request for Agency Action is consistent with prior Increased Density Orders in the Altamont/Bluebell Field and it is our opinion that four wells per 640 acre Section optimizes oil recovery and provides for a greater economic return to leasehold owners.

Crescent Point U.S. Energy Corp.
